It Pays To Advertise!

As the slogan on the billboard says, "it won't be long now." No, it won't be long until we know the results of these feverish days of tests. And it will be even sooner that we shall be setting out on the second lap of our journey. For the ink will be barely dry on our first semester exams when the second semester will begin.

The customary procedure at the beginning of a new semester is either to lapse into a state of mental inertia following the strain of exams or to wear oneself out in a few weeks because of the amount of fervor with which one begins the new quarter. But why don't we be wise and take another tip from the billboard. Let's get off to a fresh start, and keep our studying running smoother, longer.

Mercy---Distorted

Euthanasia is cold-blooded, premeditated murder. And yet 379 Protestant clergymen authorized a petition to make voluntary mercy-killing for incurables legal in the state of New York. Not only do the clergymen deny the effectuality of suffering in attaining merit for heaven, but twist the beatitude, "blessed are the merciful" to a pitiful slogan for despair.

By endorsing legalized euthanasia the 379 clergymen are violating their duty, to uphold morality, and are weakening belief in an all-powerful being. The deterioration of faith in God is evisoul of the sufferer." Thus they deny the right of the soul to Associates _____Patricia Graney merit grace for eternal salvation.

The clergymen not only deny the spiritual effect of suffering, but they also despair of the goodness of God, the possibility of miracles, and even the hope of scientific discovery. "We believe that such a sufferer has the right to die, and that society should grant this right, showing the same mercy to human beings as to the sub-human animal kingdom. 'Blessed are the merciful'.'

We, the American people, condemned the "mercy killings" of Adolph Hitler. Now we are confronted with legalized euthanasia in the United States. It is such a small step from voluntary to forced euthanasia.

Active, informed, Catholic students must provide the antidote for the poisonous pity termed "mercy-killing."

Road to Survival?

As we were casually reading over the January issue of the Reader's Digest, we were suddenly startled from our lethargy when we came upon the book condensation of the month, Road to Survival by William Vogt, chief of the conservation section of the Pan-American Union.

An excerpt from a review of the book on the title page tells us that it is a preview of "things to come as seen by a courageous, honest, competent scientist." In our opinion this is the most dangerous piece of literature to be put into the hands of the public since the days of Darwin's Origin of the Species.

Mr. Vogt has devoted this best-seller and Book-of-the-Month-Club selection to informing the people of the world that they must stop regenerating. It seems that there isn't enough earth for all the people; therefore we must conserve the earth and destroy the people.

Let me quote a few of these demoniac theories.

"All possible conservation measures are futile unless human breeding is checked." (p. 158)

"If the United States had spent two billion dollars developing a contraceptive, instead of the atom bomb, it would have contributed far more to our national security." (p. 159)

"Unless we take these steps . . . we may as well give up all hope of continuing civilized life." (p. 160)

If Mr. Vogt, basing his philosophy on the materialistic philosophy of our day, believes these statements, it is between him and his conscience. But for a magazine claiming the world's largest circulation to publish such an atrocity against man's human dignity, completely cancelling his divine rights and duties, is a serious threat to moral welfare.

In small print at the end of the condensation in the Reader's M.F.C. Residence Hall. We should begin with analysis of the persistance of a war time trend in peace time.

In the same issue: Modern Merchandising vs. the Family was written by Helen and Robert Cissell who are active in the Family Life Institute at Xavier University in Cincinnati. The article could be subtitled "time buying vs. cash buying" since it exposes the materialistic lures of advertising as the major cause of disrupt ed budgets in family life.

There are three means of meeting family financial needs. The first is to increase the weekly check which can only come if the father is wedded to business and money making. The second, to limit the family. And the third, and only Christian solution, is to keep the desires of family members within reasonable bounds by shutting the door on materialism.

HISTORY OF ART-Monday, 8:20

The January edition of Integrity provides both entertaining and thought arousing material for everyone but especially for the art department since the issue is entitled Art and Morals. Key sentences tell best the main articles.

"We have canonized the artist because he is the one who can scoop a hole in the quiet jelly of our mediocrity . . . He acts as we would if we feared . . . no law . . . Art in essence is nothing more than human making of things skillfully . . . Art draws our expenences together in understandable fact.'

In a lighter tone "Brownies and Bourgeosie" tells the story of the American habit of photographing important personal

events and then interprets this practice as man's search for an understanding of his individual personality by mechanical means. "Disregarding his Creator and trying to recreate his personality through the machine . . . the very agent that has been busily completing the abysmal destruction of his personality . . . Though he be born again of hypo and developer, enlarged and retouched, tinted and gold framed, without God he is but paper."

Four Clarke freshmen got an extension on their Christmas holidaysidsaver, Mary Hoyman, Mary McCarthanks to the freak blizzard which swept the midwest in early January. Judy Birdsall, Bobbie Lue Meigh, Janet McDermott and Phyllis Smythe found themselves snowbound at the time their classmates were checking in at Clarke.

For Judy Birdsall, of Rapid City, S. Dak., the excitement began Sunday, "When it started to snow I suspected that we were in for a storm,"

Industrial Courier reporters, "so I Judy told Courier reporters, "so called my friends and we set up headquarters at our house.

The return to school was an adventure in itself for Judy had to travel 150 miles in a truck to catch her train because drifts had blocked the tracks near Rapid City. Nevertheless, Judy, who returned to school Wednesday night, just three days late, was the first of the blizzard vic-

"I was snowbound at home, at least," she said. "One of my friends was stranded in a four-room ranch house with 36 other people."

The Sheridan Inn, famous since the days of Buffalo Bill, housed 61 people when the trains stopped running because of the frozen cattle which blocked the tracks.

"I didn't do much of anything during the storm days—a little history and a little English—but not much."

Food Problem

Janet McDermott, who lives 60 miles east of Sheridan, in Arvada, Wyo., thoroughly enjoyed the extra holidays. Her only fear seemed to be that Arvada's food supply would run out. There was no food shipped into Arvada (population: 101) from Dec.

If Bobbie Lue Meigh can't claim the most exciting Christmas vacation, she is at least first in line for the coldest. "Everyone said it was 60 degrees below zero," Bobbie Lou replied when asked about the intensity of the blizzard in Hiland, Wyo., a city 75 miles from Casper, "but I really don't think it was more than 40 below."

A Little Bit Chilly

"How did we keep warm? Well, besides the regular oil heat we had fires in every available fire place in the house. We stayed in bed as late as possible in the morning, huddled under blankets a foot high. Despite all this, though, my hair froze several times."

As for the blizzard itself, Judy Birdsall summed up the opinions of the quartet when she said, "This blizzard was fun. It was a big thrill -for the first day anyway. But I never want to see another one as long as I live."

Music Students Present Two Guest Programs

Six students in the music department were presented in a guest recital at a meeting of the Knights of Columbus at the K. of C. hall last Monday evening.

Helen Tegeler, soprano, opened the program with three numbers, Fox's Hills of Home, Weatherly's Danny Boy and Grieg's My Johann. She was accompanied by Myrna Johnson.

A cello number, Huerter's Told at Twilight, was played by Mary May, with Joan Hugton as the accompanist. Miss Hugron then played Brahms' Rhapsody in G Minor and Bartok's Bear Dance.

Violinist Judith Grills presented Spanish Dance by Rehfeld. Mary Virginia Schuster accompanied her.

Miss Schuster closed the program with two piano numbers, Guion's Harmonica Player and Shostakovitch's Fantastique Dance No. 3.

Janet Mullen, pianist, and Teresa Aldera, soprano, presented a program of music at a meeting of the club of St. Patrick's parish last Wednesday evening.
